## PRESS RELEASE

### **Plastindia Foundation announces 11<sup>th</sup> edition of international Plastics Exhibition, Conference & Convention – PLASTINDIA 2023**

- *Hon'ble Union Minister of Health and Family Welfare, Chemical & Fertilizer Shri **Mansukh bhai L. Mandaviya ji** unveils the logo of PLASTINDIA 2023*
- *PLASTINDIA 2023 to work towards developing India into a preferred sourcing hub for plastics globally*

**New Delhi, May 04, 2023:** Plastindia Foundation today announced PLASTINDIA 2023, the 11th edition of international plastics exhibition, conference & convention, to be held in held from 01st to 05th February 2023, at the newly built State of the Art International Exhibition Centre at Pragati Maidan, New Delhi, India. PLASTINDIA 2023 will focus on innovation, sustainability, and growth, facilitating modern techniques that will help to maintain a cleaner environment and lead to sustainable economic growth.

The Hon'ble Minister of Health and Family Welfare, Chemical & Fertilizer, *Shri Mansukh bhai L. Mandaviya ji* unveiled the logo, Brochure and the goals of PLASTINDIA 2023 at an event in the capital. Also present on the occasion were *Shri Bhagwanthbhai Khuba ji*, Hon'ble Union Minister of State, (C&F and MNRE) and *Smt. Arti Ahuja ji*, I.A.S, Secretary to the Government of India (DCPC). *Shri Jigish Doshi*, President at Plastindia Foundation, *Shri Ashok Goel*, Chairman, National Advisory Board and *Shri Ajay Shah*, Chairman at NEC PLASTINDIA 2023 were also present.

The Indian plastics industry is growing at a rapid pace with the production and consumption increasing manifold in the last 3 decades. Today, a major aim of the plastic bodies in India is to contribute significantly to the exports and to make India as one of the highest producers of Plastic. The current business environment, bolstered by the launch of Government of India's 'Atmanirbhar' movement and 'Vocal for Local' initiative, gives an impetus to the plastics industry to grow and provides excellent export opportunities. Indian exports of plastics in the year 2019-20 was at USD 10.00 billion, which is expected to reach USD 25.00 billion by the year 2025.

Speaking on the occasion, **Shri Jigish Doshi – President of Plastindia Foundation** said *"India is poised to become the plastics processing hub of the world. The industry that employs about 4 million people and comprises more than 50,000 processing units, is expected to reach 9.1 lakh crores (102 billion US Dollars) by 2025. We are committed to work closely with the government and the industry to facilitate growth and to work towards innovative and modern manufacturing techniques that will be sustainable for the environment and the economy."*

Over the years, the plastics industry has reinvented itself with advanced innovations and developed environment-friendly processing and utilization techniques that do not affect environment. With launch of PLASTINDIA 2023, the Foundation shared 10 goals to significantly contribute to the plastics industry:

- Making India the number one destination for manufacturing plastics
- Facilitate growth of the Indian plastics industry
- Creating Employment opportunities to Empower the economy of the country
- Make India a global sourcing hub for plastics
- To encourage new innovative techniques
- To increase the technically skilled manpower for the Indian Plastics Industry
- To increase the exports of plastic
- Increase the processing capacity of the plastic industry
- Showcasing the opportunities, the global entities can tap
- Act as a catalyst of growth for the plastics industry and sectors interconnected with the use of plastics

**Shri Ajay Shah - Chairman, National Executive Council, PLASTINDIA 2023** said, *“The Indian Plastics Industry presents excellent opportunities for processing machinery, tools, and plastic product suppliers as well plastic waste management and recycling equipment. Our aim is to foster the growth of the Indian Plastic industry by holding world-class exhibitions to offer platforms for brands to launch new products, grow their network, learn new technologies, and exchange ideas at a global level.*

*PLASTINDIA 2023 aims at not only bringing together exhibitors and visitors from different sectors of the plastic industry but also displaying the new technologies and innovations in the industry. It is a great medium to showcase new products and a brilliant opportunity to connect with national and international decision-makers,”* added Shri Ajay Shah.

The 11th PLASTINDIA Exhibition will be held from **1st to 5th February 2023** at the newly built State of the Art International Exhibition Centre at **Pragati Maidan, New Delhi, India**. This exhibition will provide an excellent opportunity for Exhibitors to showcase their new innovations in Processing, Machinery, Moulds and Dies, Auxiliary Equipment, Printing and Packaging, raw material and more.

### **About Plastindia Foundation**

Established in 1987, PLASTINDIA FOUNDATION is the apex body of the major association, organizations, and institutions connected with Plastics focused to promote the development of the plastics industry and assist in the growth of Plastics and related materials. The Foundation is committed to the nation’s growth through the development of the Plastics sector. The aim of the Foundation is to facilitate the export-led growth of the Indian Plastics industry and help boost exports both in volume and revenues. It aims to make India the number one destination and the preferred sourcing base of Plastics products in the world.
